

Assignment 01 Marking Rubric

Overall Grading Scale

	Description			
• Exceptional code quality with consistent style and thorough documentation • All features implemented correctly • Function-based design with clean data flow	• Good code quality with consistent style and adequate documentation • Most features work correctly with minor issues • Function-based design mostly clean	• Acceptable code quality with some inconsistencies in style or documentation • Several features work but with noticeable errors	• Poor code quality with many inconsistencies • Basic attempt but significant errors	• Very poor code quality or incomplete implementation • No meaningful attempt or code does not run
Excellent	Well done	Very good	OK	Need to review
HD	D	C	P	F

Question 1

	Description			
• All encryption and decryption rules implemented correctly • Well - structured code with appropriate functions • Good file handling	• Encryption and decryption rules implemented with minor issues • Good code structure • Good file handling	• Most encryption and decryption rules implemented correctly • Adequate code structure • Basic file handling	• Basic encryption and decryption implemented but with flaws • Poor code structure • Some issues with file handling	• Some problems • Incorrect answers • May have misunderstood the question
Excellent	Well done	Very good	OK	Need to review
HD	D	C	P	F

Question 2

	Description			
• Correctly tokenises all valid expressions • Recursive descent implements all	• Most expressions tokenised correctly • Most precedence levels correct	• Basic expressions tokenised • Handles basic expressions only • Tree has errors in complex cases	• Tokenisation attempted with significant errors • Basic parsing attempted • Tree has significant errors • Basic evaluation attempted	• No meaningful tokenisation • No meaningful parser • No tree output • Results incorrect or missing • No output file produced

precedence levels • Expression tree correct for all cases • All expressions evaluate correctly • Output exactly matches expected format	• Tree mostly correct, minor errors • Most expressions evaluate correctly • Output mostly matches, minor issues	• Simple expressions correct • Correct general structure	• Significant formatting errors	
Excellent	Well done	Very good	OK	Need to review
